

# The 13 challenges of global health in this decade

UN (2020)

¿How do we face all these challenges?

WITH DATA!

Data will allow us to make decisions, manage resources and be more efficient

POWERED BY

# *¿Why* are we unique in the market?

Because we are the first to recognize that people's information and data is their property and that is why we created a system to reward them if they decide to share it to create the largest database in the world and thus improve quality of everyone's life

We have developed a new way of mining crypto using the world's largest non-polluting machine, the brain. All the brains working together and mining, give rise to the "Collective knowledge" protocol, which is the way in which we will validate the information added to our exclusive Xilo AI system.

POWERED BY

# Why Datium – MDCx?

Datium is the first health database processed by its exclusive Xilo Artificial Intelligence system that uses PoB (Proof of Brain) to validate transactions and where patients and health professionals can monetize their experiences and information, receiving \$MDCx as a reward for their interaction. The \$MDCx can be used as a payment method or investment vehicle and its value is directly related to the growth of the Datium database. In addition, Datium implements exclusive dApps such as Clinical Simulators (Continuing Medical Education and Training), Disease Prevention Programs for Patients and Telehealth for remote medical consultations and patient monitoring. All of these tools allow Datium to collect sensitive data to increase the volume and quality of information and thus increase the value of the \$MDCx token as a representation of Datium, the most powerful AI healthcare knowledge generator ever seen.

POWERED BY

# Business model:

## How does the business generate income??

We have created a business that is not only self-sustaining, it is tied to a token that is in turn connected to the main asset of the business: the data. The whole ecosystem provides services to both doctors and patients and that in turn continues to collect data and making Datium-MDCx 's value grow, but also, all the dapps will monetize the business.

Then, once the database contains a sufficient amount of information,  
it will be marketed to the different players in the industry.

POWERED BY

# Market launch plan:

All the services we develop are technological, they have their own developed Dapps and the marketing channel is virtual.

Datium nació como respuesta a una necesidad específica de la industria: tener más información a la hora de tomar decisiones que impactan en la vida de todos.

Apalancado en el conocimiento que tenemos cada uno de nosotros como pacientes, profesionales y agentes de la industria, y basado en que debemos ser recompensados por lo que sabemos, nació este modelo de negocio.

Datium tiene como objetivo transformar la industria. Es una gran base de datos de CONOCIMIENTO COLECTIVO.

Mediante tecnología de punta como la IA, nos permitirá ser más asertivos. Esto, sustentado en datos estadísticos concluyentes para una mejor prevención – diagnóstico y pronóstico de salud.

# About us

We are a team of multidisciplinary professionals dedicated to the field of health and technology with more than 10 years of experience. Our mission is to be able to democratize quality health and bring it to the greatest number of people in the world, thus fulfilling one of the challenges of the decade proposed by the UN.

## Meet the Team

**Sebastien Borgia**  
ECONOMIST / CEO

Economist specialized in cryptoeconomics, with more than 15 years of experience in the laboratory, health industry and corporate finances.

**Ignacio Alonso**  
COO

Business Administrator & Accounting  
High caliber and dynamic business developer and operations executive. More than 20 years of experience in international business development and a solid commercial vision within international organizations in Europe, Asia and Latin America. Experience in multi-project management. Creation of companies and scaling them to large operations.

POWERED BY

## Jacqueline Preibisch

**Business Development & Communications Manager**

Psychologist with a Master in Cognitive Behavioral Psychology, with more than 15 years of experience in the Marketing and commercial area. Entrepreneur, I developed my own telepsychology company in 2019.

## Andres Talgham

**Financial Advisor**

Public accountant, financial analyst, & entrepreneur. 10 years of experience in cryptocurrencies advising on DEFI projects, DAO focused on Farming and physical and virtual mining.

## Guillermo Mendioroz

**Developer – RPA**

Automation anywhere, UI Path, Blue Prism. Database, SQL and Excel programming.

## Jose Steven

**Blockchain Advisor**

Blockchain Advisor, Writer and CEO of the QG project. He began his studies in cryptocurrencies in 2014. He currently has his own YouTube channel "Quieroganar" where he teaches Crypto classes and training to users.

# Nuestros embajadores

DOCTOR

## Juan Pablo De Sio

Médico Clínico y Geriatra Egresado de la Universidad de Buenos Aires (UBA) Docente en la cátedra de medicina interna de la UBA  
Médico de planta del Sanatorio Municipal Dr. Julio Méndez y miembro de la Clínica y Maternidad Suizo Argentina. Más de 15 años de experiencia

DOCTORA

## Susana leonor sosa

Especialista en medicina interna. Egresado de la Universidad de Buenos Aires (UBA)  
Postgrado en "Evaluación y tratamiento del dolor (Instituto Universitario Hospital Italiano)" Postgrado en Capacitación para la prevención y tratamiento de la diabetes y otros factores de riesgo cardiovascular (Facultad de Ciencias Médicas, Universidad Nacional de La Plata).  
Médico de planta del Servicio de Clínica Médica del Sanatorio Municipal Dr. Julio Méndez. de la Clínica y Maternidad Suiza Argentina. 20 años de experiencia en el ejercicio de la medicina.

DR, PROFESOR E INVESTIGADOR

## Emilio levoratti

Más de 20 años de experiencia en las entidades de atención cardiológica más prestigiosas del país. Miembro de la Sociedad Argentina de Cardiología, Sociedad Interamericana de Cardiología, Ecosiac y ASECHO.

DR, PROFESOR E INVESTIGADOR

## Juan Cruz Ponceliz

Médico Practicante egresado del Hospital Austral. Actualmente se desempeña como residente de Cirugía General en dicha institución y en cuidados paliativos en el HUA

# How to invest?

The investment proposal is to acquire the MDCx token which will gain value as the Datium database increases in volume. Likewise, this token will serve as a means of payment in the industry, with which it will not lose its value, but each time it will increase.

## There are two types of investment:

**The acquisition  
of the \$MDCx token**

**Farming of the daughter coin Xilocoin**  
which is tied to the mother coin MDCx  
and generates interest from the first day  
of entry into the Pool.

POWERED BY

# Datium/MDCx Investment Vehicles (XiloCoin)

- Staking Pool 60 days: 212% APY
- Staking Pool 90 days: 267% APY
- Staking Pool 180 days: 180% APY
- Staking Pool 365 days: 1200% APY

## Valuation Control Mechanism \$MDCx

The XiloCoin will be issued for the Daily Staking Pool. The \$MDCx/XiloCoin pair will allow devaluing the value of the accrued interest amounts in \$MDCx on the invested capital.
